Prabesh Kumar Shrestha

Web Developer

I am a hard-working and driven individual who isn't afraid to face a challenge. I'm passionate about my work and I know how to get the job done. I would describe myself as an open and honest person

PROJECTS

Weather Application

- Used API
- Used HTML and CSS for frontend and PHP as backend
- Mysql for the database to store the weather data with a timestamp so that the application does not need to fetch each time we hit the refresh button
- and also did a demo using XAMPP

Tour management system

- Used React JS framework for frontend and python Django for the backend
- Used SQL Lite provided by Django framework
- Instead of using the default super admin, I created a whole new admin dashboard.
- In this project, my main objective was to manipulate the database to do CRUD functions

Course Management System

- I used Java swing for this project and MYSQL databases
- after completing this project I got to understand the concepts of Object-Oriented Programming(OOP)

UI/UX Designing

- Firstly made a low-fidelity wireframe using Balsamiq
- Prototyping in Figma

<https://www.figma.com/file/2troFMgeZzsxnSuraFjrqc/Design-and-Prototype?node-id=0%3A1>
